Blue Pavilion Business Website - Documentation

1. Introduction

Welcome to the **Blue Pavilion Business Website** template.
This is a modern, responsive, one-page business website designed primarily for construction companies, startups, freelancers, NGOs, and other organizations seeking a clean and professional online presence.
Built using only HTML, CSS, and JavaScript, it is easy to customize and deploy.

2. Installation

Follow these simple steps to get your website up and running:

1. **Download and Extract**
   Download the template package and extract it to your preferred directory.
2. **Open in Browser**
   Open the `index.html` file in your favorite web browser to view the website locally.
3. **Upload to Web Server**
   To publish your website online, upload all the extracted files to your web hosting server using FTP or your hosting control panel.

3. Customization

You can easily modify the website to suit your brand and needs:

- **Edit Content**
  Open the `index.html` file in a code editor (e.g., VS Code, Sublime Text). Update text, headings, and sections as needed.
- **Change Styles**
  Modify `style.css` to update colors, fonts, and layout styles.
- **Contact Form**
  The contact form uses EmailJS for handling submissions.
  To enable it:
  - Replace the placeholder keys in `form.js` with your own EmailJS **User ID**, **Service ID**, and **Template ID**.
  - Visit [EmailJS](#) to create an account and obtain these keys.
  - Ensure your form's `id` matches `contact-form` in the script.

Blue Pavilion Business Website - Documentation

- **Navigation Menu**
  The hamburger menu toggles for smaller screens. You can customize the icons and styles in the JavaScript (`index.js`) and CSS files.
- **Animations and Effects**
  Basic animations are included via CSS and JavaScript. Feel free to enhance or add new animations as you see fit.

4. Features

- Fully responsive, mobile-friendly design
- Clean, modern one-page layout
- Contact form integrated with EmailJS
- Smooth scrolling and scroll-to-top button
- Hamburger menu for easy navigation on small screens
- Easy to customize with standard web technologies (HTML, CSS, JS)

5. Credits

- [EmailJS](#) — Contact form email service
- Icons and fonts used are free and open source
- Thanks to all open-source contributors
